General Comment

Please be advised that I am writing to object to the new Conflict of Interest Rule that broadens the definition of the term Fiduciary to include me as a financial planner making recommendations to my clients for their retirement planning. I have been serving my clients for over 30 years in the financial planning industry. I have held the title of CFP and required to take continuing education including ethics every year and have built my business on the basis of trust. Improperly classifying me as a fiduciary based on planning recommendations would adversely impact my business and would add no value to my clients.
